ABOUT ME:

Hi, I'm Jason Fisher, a geospatial data analyst currently based in Eau Claire, WI. I have significant experience in GIS analysis and cartography, with special emphasis on political/historical topics. In the future I hope to expand my skills in GIS and other geospatial programs, as well as improve my design skills with regards to layout creation and visualization.

JASON FISHER

GEOSPATIAL DATA ANALYST

EDUCATION

University of Wisconsin-Eau Claire

September 2022 - December 2025

Bachelor of Science: Geospatial Analysis and Technology

Grand Valley State University

September 2021 – April 2022

Bachelor of Science: Geography with emphasis in Geospatial Technology

RELEVANT EXPERIENCE

Wisco Project

August 2024-September 2024

Canvassed UWEC campus to get pledges to vote from students and entered them into a database as part of a two-week paid fellowship to boost political engagement on campus ahead of the 2024 election

L.E. Phillips Senior Center

June 2025-July 2025

Working with L.E. Phillips Senior Center to raise awareness of technology among senior citizens through teaching them technical skills, as well as providing troubleshooting support
